Maria Huan

mariahuan2008@gmail.com | Github | LinkedIn | Berkeley, CA | US Citizen

EDUCATION

University of California, Berkeley **Expected May 2030**
B.A. Computer Science

Relevant Coursework: Structure/Interpretation of Computer Programs, Linear Algebra and Differential Equations

EXPERIENCE

Hend.app **Jun. 2025 – Jun. 2026**
Software Engineering Intern *Remote*

- Raised UI satisfaction from 3.2 to 3.9 by designing and optimizing components in React.js
- Cut feature turnaround from 2 months to 1 by building login and form-submission features connected to backend APIs

CAHSAA Internship Program (AI) **Jan. 2026 – May 2026**
Software Engineering Intern *Remote*

- Built custom MCP server integrated with backend APIs to power redesigned AI image-generation workflows on Runninghub.AI
- Cut image generation time from 10 minutes to 1 by connecting an agent-driven MCP server, removing manual workflow adjustment and filter searching
- Reduced failed tool calls by 50% by evaluating GPT, Grok, and Ollama models for MCP tool-calling reliability, selecting Ollama as backend

HUVTSP Docubridge **Jul. 2025 – Aug 2025**
Software Engineering Intern *Remote*

- Reduced number-misread errors from 30% to under 10% in AI finance agent by refining Excel parsing with Python (Pandas, NumPy)
- Built QnA interface rated positively by 8/10 users for intuitive finance-query interaction

High Technology High School VEX Team **Sep. 2024 – May. 2026**
Lead Programmer *Lincroft, NJ*

- Cut new-programmer onboarding from 3 weeks to 1.5 by engineering reusable C++ codebase (odometry, PID, movement, effectors)
- Reduced revision cycles per competition from 5+ to 3 by sketching prototypes that improved build-code communication
- Led 7 junior programmers, directly mentoring 2, on control systems and movement algorithms

Micromouse Engineering Competition **Aug. 2024 – Dec. 2025**
Head of Outreach *Lincroft, NJ*

- Recruited 30+ new high school competitors by founding NJ branch of the College Micromouse Competition
- Drew 50+ attendees at peak seminar by connecting alumni, winners, and professors for outreach events

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, TypeScript, HTML/CSS, SQL, Regex
Frameworks & Libraries: React.js, Next.js, Node.js, Tailwind CSS, Bootstrap, SQLAlchemy, Pandas, Numpy, Matplotlib
Developer Tools: Git, GitHub, Figma/Canva, MCP

PROJECTS

Simple Planner - Daily Task Tracker and Checklist | **Python, Javascript, React.js, HTML/CSS** **Oct. 2025-Nov. 2025**

- Built desktop task tracker in React.js with due dates, notifications, and daily checklists
- Implemented time-based theme switching (sunrise/midday/night) for adaptive UI

InternBot - Discord Internship Scraper & Tracker | **Python, discord.py, SQLAlchemy** **Sep. 2026–Present**

- Delivered real-time internship listings by scraping 2 GitHub repos every 5 minutes using Python, BeautifulSoup, and asyncio
- Enabled in-Discord application tracking via interactive buttons (interested/not interested/status), backed by SQLAlchemy
